

MANIFOLD FOR GUN ECCO68AS - ALL SETTINGS IN THE MANIFOLD

As a very important complement to the new automatic low pressure spray gun ECCO 68AS, we are introducing the new smart and flexible manifold **ECCO BASE**!

ECCO BASE is available in 4 different versions, all with different features and adjustments to control the spraying process. This gives the flexibility to choose the correct control level for each unique application. Since the same gun type is used for all manifolds, spare guns can easily be kept on stock. We have kept the gun itself robust and simple, and instead we have placed all settings in the manifold. Once you have made your optimal settings you can keep them, also when changing the gun for maintenance. You get a stable and precise spraying result every time!

ECCO BASE VERSIONS

E68 Base B - B for **Basic**, therefore this manifold has no regulators.

E68 Base A - A for **Air** since the fan air can be adjusted

Ecco Base F - F for **Fluid** and then the fluid, or paint can be adjusted.

Ecco Base AF - AF for both **Air and Fluid** control. The most advanced manifold where you can adjust fan air and the flow of paint or other fluid.

TECHNICAL DATA

- Air channels	Ø 5,8 mm
- Paint channels	Ø 6 mm
- Paint connection hose	Ø 8/6
- Air connection hose	Ø 10/8 and 8/6
- Air consumption	max 980 lit./min.
- Gun diameter	Ø 41mm
- Weight gun / gun+manifold	460g / < 800g
- Max size (width x height x length)	75 X 75 X 130 mm

Ordering numbers and prices

Designation	Description	Ordering No.
Ecco 68AS	Gun with fluid nozzle & needle in SS	8611 6168 XY
Ecco 68AS	Gun with fluid nozzle & needle in TC	8611 6168 XY
E68 base B	Manifold w/o control (basic)	6004 0348 61
E68 base A	Manifold with Air Control	6004 0348 62
E68 base F	Manifold with Fluid Control	6004 0348 63
E68 base AF	Manifold with Air & Fluid Control	6004 0348 64
