

### ECCO 68AS - FLEXIBLE, ROBUST AND PRODUCTION FRIENDLY

We are proud to introduce the new automatic low pressure spray gun ECCO 68AS! ECCO 68AS is a complete new gun, designed to give the highest durability and shortest possible down time in the production. All settings are placed in the manifold, making the gun easy to change without additional adjustments. ECCO 68AS can be ordered with 4 different types of manifold, all with different features and adjustments to control the spraying process. This gives the flexibility to choose the correct control level for each unique application. Since the same gun type is used for all manifolds, spare guns can easily be kept on stock.

#### ECCO 68AS - FEATURES

- \* Highly versatile gun,
- \* External settings for easy control and maintenance,
- \* Stable, accurate and highly durable,
- \* Range of manifolds covering every use and adjustment possibility,
- \* Proven long life time on all components.
- \* Price competitive.

#### TECHNICAL DATA

- Paint nozzle diam.	0,3-2,7 mm
- Paint channels	Ø 6mm
- Paint connection hose	Ø 8/6
- Air connection hose	Ø 10/8 and 8/6
- Air consumption	max 980 lit./min.
- Gun diameter	Ø 41mm
- Weight gun / gun+manifold	460g / < 800g
- Max size (width x height x length)	75 X 75 X 130 mm
